Make a statement with contemporary Vision blinds

# Set the trend with a Vision blind

  
**LOUVOLITE**

**Controlling the light while maintaining the view, create an impact with Vision; a striking new window blind for the modern home.**

Vision is a stylish fabric that gently filters and softens daylight whilst also offering you the option of a privacy blind.

The Vision blind combines the ideal balance of privacy and light control with the fashionable, eye-catching trend of bold stripes and colour blocking.

With a Vision blind you will enjoy the very best in quality, manufacture and design, along with the practicality of a low maintenance window blind.

The exceptional Vision range features sheer metallics, delicate subtle tones and natural wood weave effects, the perfect collection for any room in the home.

## Child Safety

Child safety in the home is a primary concern for us all especially where young children are concerned, so to minimise the risk of unfortunate accidents we recommend the use of our safety options on all Vision blinds, such as a cord and chain tidy or cord and chain cleat.

# Contemporary shading, stylish practicality

Partially Open | Opaque - Opaque

Vision is an innovative new window blind that features two layers of translucent and opaque horizontal striped fabric. The front layer moves independently of the back allowing the stripes to glide between each other creating an open and closed effect, with limitless light control.

Sliding the fabric into a closed 'opaque-opaque' position allows full privacy and an impressive block of beautiful fabric at your window, whilst the 'translucent-opaque' position creates a stunning striped statement.

Vision blinds not only look great but are practical too, enabling you to soften excess daylight and reduce the glare entering your room. Easy to use, a single control is used to slide the opaque and translucent woven stripes past each other. The same operation is used to raise or lower the window blind to any height in the window with ease, in the same way the classic roller blind would.

A Vision blind will also roll up fully into the attractive cassette headrail to reveal an uninterrupted view to the outside.
